

Report for Hands of Love 2023

HANDS OF LOVE Home remains committed to providing a safe, educational, and healthy environment for all the children and youth who are part of our family. During the 2023 year we have achieved significant progress in key areas such as education, health, and overall well-being.

1. School Supplies and Basic Equipment

As part of our annual planning, in February 2023 the Hands of Love Home acquired essential school supplies to support the educational development of the children and youth in our care

These items are vital for the start of the school year and ensure that our children have everything they need for effective learning.

2. New Mattresses

We also made an important purchase of 30 new mattresses. These mattresses were provided to improve the children's sleeping conditions, ensuring their comfort and health, as good rest is essential for their overall development.

3. This year included a visit from the president and her husband who came to assist and be an encouragement to the team as well as to the children. Much love was spread around!

4. Trip to the United States of America

Lidia and Ronald, members of our team, traveled to the United States. This trip was an invaluable opportunity to strengthen relationships with the sponsors who support our cause. We are deeply grateful for this encounter, which not only allowed us to reinforce bonds of friendship and cooperation but also served as motivation for our sponsoring partners to continue supporting the mission of Hands of Love.

5. Graduation

We also joyfully celebrated the high school graduation of two of our children. This milestone reflects the students' hard work and dedication, as well as the constant support they receive from the home to reach their educational goals. This achievement stands as evidence of the positive impact of our work and the vital role of education in transforming the lives of our children. They are a part of several others who have been with us long enough to graduate and move on to further education.

HANDS OF LOVE Home remains committed to providing a safe, educational, and healthy environment for all the children and youth who are part of our family. During the 2023 year we have achieved significant progress in key areas such as education, health, and overall well-being.

We look forward to continuing our progress, reaching new goals and strengthening our mission for the benefit of the children and youth of Manos de Amor Home.
